**INDUSTRIES**

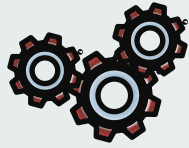

# History.

V-JAYA was established in 1992 under the name of Roy-al die casting with first aluminum die casting machine in city back then we supplied door hardware and other home fit products to the local market, soon because of the fine quality work we were approached by few automobile companies and that was our first step in automotive market, with time and growing experience we became the finest manufacturer in the city from one machine to now 7 we host the biggest manufacturing unit in the city.

From manufacturing door hardware for other exporters to exporting it to biggest brands in europe we have grown.

Our commitment to best quality at best price made us a reputed vendor.

# Our Services

## OEM manufacturing

V-JAYA deliver a seamless experience to OMEs , from product manufacturing to custom packaging.

## Zinc die casting

V-JAYA also have in-house zamack /zinc casting machine so you can get complete solution at one place

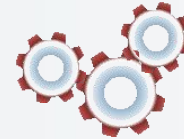

## Mould/die making

With high-tech machinery and best engineers we provide in-house die making/tooling facility with best price and quality guarantee.

## Plating/polishing.

Our OEMs don't have to worry about the finishing as V-JAYA provide same exact finish as per the order, with tested quality under salt water

## Aluminium die casting

V-JAYA have 6 aluminum die casting machines which sums up to the capacity of 25,000pcs per day.

# HOW WE WORK

Process your samples or drawings and quote price and other terms.

After placement of order the drawings and quote price and other terms. D department for the tooling process.

Lab tested alloy of the required grade is bought to the manufacturing unit.

Trial of mould is done to ensure the accuracy and smooth functioning of the mould.

Trial shots are sent for quality check and go to the plating plant for finishing and inspected again to ensure quality.

The samples are then shipped to customer so that they can ensure the quality from their end.

# Engineering Capabilities.

---

- i. 7 PDC machines 80ton-250ton (ZINC AND ALUMINIUM)
  - ii. Lathe, Grinding, Milling, Drilling, Taping and Lancer.
  - iii. Electrostatic Lacquer
  - iv. Electrophoresis Lacquer (one of the most clean and effective plants)
  - v. Electrostatic Spray Lacquer
  - vi. Ultrasonic Degreasing
  - vii. Electroplating and Anodizing Plants
  - viii. Polishing in variety of finishes
  - ix. Powder Coating
  - x. (Computerized Numerical Control) C.N.C. Wire Cut Machine.
  - xi. V.M.C (Vertical Machining Centre) Machine.
-

# WHY US ?

**01**

**For all solutions at one place**

V-JAYA gives you everything at one place from manufacturing to packaging.

**02**

**FOR BEST VENDOR EXPERIENCE.**

From placing the order to shipment we strive to provide best experience

**03**

**FOR MORE PROFITS.**

V-JAYA provide services at best market price which means increase in margins.

**04**

**FOR WORK COMMITMENT.**

V-JAYA has a track record for on time delivery of goods from last 26years.

**05**

**FOR BEST QUALITY.**

All V-JAYA products clear our unique 5 point quality test system for best quality.

# What makes us different.

What makes us unique is that we don't have any specific product to sell because we have made thousands of products in the past from door handle to casted toys to engine parts and other.

So we ask our consumer what they want and we will make the same exact thing that they demand, **same Finish, Metal, Size, Weight, even packaging of their brand we do it all for you.**

# COMPARE US

---

---

Getting a Quote is easy with V-JAYA, just tell us the specifications and we provide you the quote faster than others.

We are proud on our **pricing policies and quality service**, which makes us confident enough to ask our consumer to compare us with rest of the market.

---
